

**Center for Research and Education on Aging and  
Technology Enhancement (CREATE)**

CREATE is a multidisciplinary and collaborative center founded in 1999 and funded by the National Institute on Aging (National Institutes of Health) Grant # P01 AG073090. CREATE is dedicated to ensuring the benefits of technology can be realized by older adults to support and enhance their independence, productivity, health, safety, social connectedness, and quality of life.
